SUMMARY

Detail-oriented and self-motivated Frontend Developer with a strong foundation in HTML, CSS, JavaScript, and React.js. Experienced in building responsive and accessible user interfaces, single-page applications, and component-based architectures. Skilled in using modern tools such as Tailwind CSS, React Router, Axios, and Vite to deliver clean and scalable front-end solutions. Proven ability to integrate APIs, optimize performance, and write maintainable code. Committed to continuous learning, collaboration, and delivering user-focused web experiences.

EXPERIENCE

IT Support

Smart Up

March 2023 - November 2024, Egypt, Cairo

- Resolved technical issues by troubleshooting hardware and software concerns, ensuring uninterrupted operations and sustained user satisfaction.

EDUCATION

Bachelor of Information Systems

New Cairo, Egypt • Egypt • 2026

COURSEWORK

Python

ITSharks, Cairo • 2025 • Problem Solving, Teamwork

- Solved coding challenges and debugging tasks during group projects, applying logical thinking to identify and fix issues in Python scripts.
- Collaborated with classmates to complete Python assignments and group exercises.

Frontend

ITSharks, Cairo • 2025 • Responsive Design, React Component Architecture

- Built mobile-friendly user interfaces using HTML, CSS, and Tailwind CSS, ensuring consistent layout and functionality across screen sizes.
- Developed reusable and maintainable components in React, using props and hooks to manage data and UI logic in a real-world movie app project.

SKILLS

- Frontend: HTML, CSS, JavaScript, React
- Tools: Git, VS Code, Postman, Figma
